

CHURCHES WANT BUILDING LOANS

404 More Applications Made This Year Than Last. Bishop M. Murry Head of Board.

Seven hundred and forty churches have made application to the Board of Extension of the Methodist Episcopal church, South, for building loans, this being 404 more applications than last year. \$600,000 is available by the Board for immediate distribution on loans, but the applications amounted to more than \$2,000,000.

At a meeting of the Extension Board held Friday in the offices of the board on Fourth street, Louisville, Bishop W. F. McMurry, of St. Louis, was elected president to succeed T. L. Jefferson. Rev. S. H. C. Burgin was elected secretary to succeed Rev. Dr. H. A. Boaz, who resigned to accept the presidency of the Southern Methodist University, Dallas, Texas. There were five other candidates for the secretaries position.

Chairman of the Loan Committee announced that loans up to \$50,000 would be made, dollar for dollar, on amounts raised by negro Methodists Episcopal churches for building purposes.

PROMINENT INDIANA FARMER

CURED OF RHEUMATISM BY TAKING NUMBER 40 FOR THE BLOOD

Newburgh, Indiana, April 17, 1919. "I suffered with rheumatism for several years and tried numerous remedies with little or no benefit. Number 40 For The Blood was recommended to me and I have used in all six bottles and am entirely cured, and have had no symptoms of the disease for over two years." Frank Stacer. Number 40 encourages rapid elimination of morbid and unhealthy products used in the treatment of chronic enlargements of glands, in blood troubles, chronic enlargement

of the spleen and liver. Encourages the flow of bile and corrects catarrhal conditions. Used with advantage in eczema and skin eruptions of whatever character and in general run down conditions of the system. Made by J. C. Mendenhall, Evansville, Ind., 40 years a druggist. The best druggist in your neighborhood sells Number 40, but if it happens that he does not, send direct to J. C. Mendenhall Medicine Company, Evansville, Indiana, and receive it delivered to you at \$1.25 per bottle, six bottles for \$7.00.

Six Men On One

Ames
BUGGY
WHEEL

Equal to 5,000 Lbs. on One Buggy

That cut was made from an actual photograph of 6 Ames workmen putting the "third degree" test to an untired Ames buggy wheel, picked at random from a carload lot. They put their combined weight on the rim. When they stepped off the wheel sprang back to its original shape without a crack, break, or even a bit of loosening at the hub. That's the kind of quality you get in every part of the Ames personally guaranteed buggies and surries.

See the Ames Here

Come and see how strong, snappy, stylish, light running, and easy riding the Ames really is.

HON. RICHARD P. ERNST.

ERNST ENTERS SENATE RACE

CANDIDATE NOTED FOR
EXTENSIVE CHARITY WORK

EDUCATOR AND "Y" LEADER

Ardent Supporter of Movement
To Wipe Out Illiteracy

It is hardly necessary to introduce Richard P. Ernst, whose candidacy for the United States Senate has just been announced, to the average Kentuckian.

His name has appeared throughout the state in connection with charitable movements, war campaigns, church and missionary work and drives to aid the schools and school teachers, especially in the mountain districts.

His charitable work, aggressiveness and progressiveness in civic movements and personal popularity have made him one of the most generally admired men in Northern Kentucky.

His extensive work in the interests of his state and its people began immediately upon Mr. Ernst's graduation from the famous Old Centre College, Danville, where he was valedictorian of his class.

Admitted to Bar.

He was admitted to the bar in Ken-

ton county after examination by Senator John W. Stevenson and Judge William R. Arthur and since has practiced law in Covington and Cincinnati with the same aggressiveness and success that have featured every movement worth while into which he has directed his efforts.

Glancing over the long list of his activities one can see that he continually has enlisted himself in movements in which he could accomplish best results for the people.

As trustee and a member of the Executive Committee of Old Centre College, Kentucky State University at Lexington, and of Pikeville College, his excellent advice and assistance in matters of importance have been extremely beneficial to the students.

Wars On Illiteracy.

Recently he has taken a deep interest in the campaign teachers are waging for increased salaries and has been taking active steps to secure better pay both for the teachers of the state and for the professors in our colleges and universities. The mountain schools especially appeal to him and he has been an ardent supporter of the movement to wipe out illiteracy and to offer residents of the mountain districts better facilities for education.

Mr. Ernst's continuous help has been received by the churches of the state, regardless of denomination. He is an elder and succeeded his father as superintendent of the Sunday-school, their terms of service covering a period of nearly 80 years. He has been looking after educational and missionary work in the mountains, as chairman of the State Committee of his church, and has succeeded in more than doubling the amount heretofore given for this purpose.

And his work does not end there. He is president of the Covington Y. M. C. A. and a member of the National War Council. As head of the Y. M. C. A. he has been mainly instrumental in erecting one of the most complete and modern buildings to be found.

Son in Active Service.

He was active in every form of war work and gave continuously of his time, labor and money, whenever called upon. His only son was serving at the front in France, as a captain in the regular army, when the armistice was signed. He had entered the army as a private during the Mexican trouble and later passed his examinations at Washington, winning a second lieutenantcy. Mr. Ernst's son-in-law, John P. Darnall, of Flemingsburg, volunteered as a private and also was in active service at the front.

His wide and extensive business and professional experiences, as counselor and advisor to many large financial and manufacturing concerns, has been of unlimited value to his state and community, as he has been called upon many times to give advice when matters of big moment were being considered.

Mr. Ernst's record of service in the Republican party is a long one.

Good Republican Record.

Beginning as Councilman in Covington, he was kept in office by members of both parties until he insisted on retiring. For many years he was on the State Central Committee and for four years served as its chairman. He has represented his district a number of times at National Conventions and also has been one of the "Big Four" from his state. It was he, who, while state chairman, established state headquarters at Louisville, since continuously maintained by the party. He also has been a liberal financial supporter of the party during all three years and one of its wise counselors.

Mr. Ernst's father was William Ernst, a banker at Lexington, subsequently Covington. His mother was Sarah A. Butler, a Jessamine county girl.

It was through Mr. Ernst's instrumentality that the Covington Industrial Club was developed and through his efforts that the campaign to erect a magnificent headquarters for this remarkable civic organization was successful.

GETS RID OF HER TROUBLES AT 75

"Tanlac is Certainly a Fine Medicine For Elderly People," She Says.

Among the many Kentucky people who have recently testified to the powers of Tanlac is Mrs. Nannie Chappell, residing at 3724 Old Third street, Louisville, who in relating her experience said:

"I am now seventy-five years of age, but I doubt if there are many women that old who feel any better than I do since taking Tanlac. Why, during all the years of my life I have never seen or heard of a medicine to equal it, for a few bottles have relieved me of a case of rheumatism, nervousness and indigestion that had troubled me for twenty-three years. Sometimes my lower limbs hurt me so bad I couldn't walk and at times my arms pained me so I couldn't raise my hands to comb my hair. I had several attacks every year and while they were on me I could neither get up or down without help. Many a time I got so nervous I would shake like a leaf and just dreaded to see night come, for it was impossible for me to sleep. My appetite left me, too, and everything I ate disagreed with me.

"Finally I got so bad off with this rheumatism that I couldn't stay on my feet any longer. While I was down in bed my son, who is a passenger engineer on the Louisville and Nashville railroad came to see me and said, 'Mother you remember how I suffered so long with stomach trouble and could hardly eat at all, and lost weight and thought I would have to quit work. Well, you see me now weighing two hundred and fifteen pounds, and in such a good condition that I can eat pork or anything

else I want and my health just perfect. Tanlac did this for me and I'm going to get you a bottle.' So he did and almost as soon as I began taking it I felt better. In a few days I had a good appetite and was able to get out of bed. I have taken three bottles of Tanlac now and am feeling like a different person. Every sign of the rheumatism is gone and I am not only able to sleep soundly every night but I usually take a nap during the day. Tanlac is certainly a fine medicine for old people and I will gladly tell anyone personally just what it has done for me."

"Tanlac is sold in Cloverport at Wedding's Drug Store.—Advertisement.

An Accurate Corn Planter Is One of Your Best Friends

The Accurate Drop Corn Planter

The real reason for using a corn planter is to save time. However, if the planter is not accurate, it would pay better to plant by hand. Accuracy in a corn planter means uniform drop—the desired number of kernels in each and every hill. If the planter is not accurate, a loss in yield will result.

Accuracy in planting has been the main object in designing the John Deere No. 999 Corn Planter. The advantage of using this planter is that with proper handling it will plant two, three or four kernels in the hill, as desired. Everyone of these machines is rigidly inspected before leaving the factory.

The seed-dropping device on this planter is an improvement over all other seed-dropping devices. The John Deere No. 999 is equipped with John Deere Natural Cell Fill, Edge Delivery Seed Plates. The surface of the hopper bottom and the openings to the seed cells are oblique or sloping. The weight of the corn in the hopper causes the seed to move toward and enter the cells of the seed plate in its natural position. The kernels do not have to be tipped on edge, and, therefore, each cell is filled readily.

The Full Variable Drop Planter

The John Deere No. 999 Planter has a variable drop consisting of a train of gears constantly in mesh. With this device, two, three or four kernels can be planted as desired merely by shifting the foot lever. The gears are enclosed in an oil-tight case, and it never is necessary to remove them from this case, which is dust-proof.

The driving mechanism has this advantage over the ordinary—it never is separated. Other devices open and close at every action of the fork by the wire and are con-

stantly being released under strain, causing considerable wear and reducing the life of the most important parts of the planter. The device on the John Deere No. 999 Planter can be shifted at any time in the travel of the machine.

The John Deere No. 999 is a real variable drop planter—it varies the distance in drilling as well as the number of kernels per hill in hilling, and gives a greater variety of distances without the use of extra sprockets and plates.

All corn plates on this planter have 16 cells; therefore, the same drilling distances can be obtained as on planters having 8, 12 and 16-cell plates, and without the change of plates.

Hilling or Drilling

Change from hilling to drilling or back to hilling is made instantly. No extra attachments or extra tools are required. Simply pressing the foot lever makes the change.

The foot drop provided on this planter is of special use in hill dropping with the foot; also when planting rows at the ends of the field.

Plants Many Varieties of Corn

Seed plates can be furnished for handling practically any kind of corn; also sorghum, milo, maize and other seeds.

The improved form of cut-off has a quick action. The spring knocker causes each kernel to be discharged upon the valve without fail.

There are no ridges or obstructions in the valves to catch and hold the kernels. Sufficient opening is left just above the upper valve to enable operator to see the kernels as they are collected for the hill.
